Bangalore, Karnataka

Professional Summary

Computer Science undergraduate skilled in Python, AI/ML, Web Development, and Problem Solving. Experienced in building AI-driven applications and actively solving DSA problems through competitive coding.

Technical Skills

Programming Languages: Python, C, Java, Basic R **AI / Data Science:** Machine Learning, NLP, Pandas, NumPy **Web Development:** HTML, CSS, JavaScript, React, Flask, Streamlit **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook

Experience

AI/ML Intern Jan 2026 – Mar 2026 *Infosys Springboard*

- Built a Fake News Detection MVP (Infosys Springboard Milestone 4) that classifies news articles as real or fake using a fine-tuned DistilBERT model.
- Extracted checkable claims from articles using spaCy and built an explainability module to highlight suspicious phrasing for transparency.
- Integrated the Google Fact Check API to verify extracted claims and built an admin dashboard to manage trusted sources.
- Performed data preprocessing and cleaning of large news datasets using Python and Pandas.

Projects

- **Autism Assistant** – Home-Based AI Integrated Therapy (Ongoing) – *Python, Machine Learning, Streamlit*
 - Developing an AI-powered therapy assistant that guides home-based sessions for children with autism, with an accessible interface built for caregivers.
- **Sahayya Portal** – Digital Complaint Submission System – *React, TypeScript, Vite, Tailwind CSS, shadcn/ui*
 - Built a fully responsive complaint submission and tracking platform with real-time form validation and an admin dashboard for reviewing and managing submitted complaints.
- **Desi Snack House** – E-commerce Website for Sweets and Savory Products – *React (TypeScript), Node.js, Express, MongoDB, Razorpay*
 - Built a full-stack e-commerce platform with a multi-language (English & Kannada) product catalog and cart, Razorpay payment integration (UPI, Cards, NetBanking, COD), automated WhatsApp order confirmations, and a real-time admin dashboard for order management.

Achievements

- Solved 100+ DSA problems on LeetCode.
- Finalist – Mini Anveshana Innovation Event.
- Attended 10+ hackathons.
- AWS Student Builder.
- Member of Google Developer Groups (GDG); attended GDG-organized developer events.
- Attended developer meetups and tech events hosted via Luma.
- Volunteered at a Stack Overflow community meetup.
- Active open-source contributor.
- CGPA: 9.6/10.

Education

B.E. in Computer Science and Engineering 2023 – 2027 SDMIT College, Dharmasthala, VTU CGPA: 9.6/10

Certifications

- simplilearn – Artificial Intelligence
- Infosys Springboard – Java
- Udemy – Full Stack Web Development
- NPTEL – Python for Data Science
- NPTEL – Soft Skills
